Letter to Prof. Muir,
Shiner, Texas.

Dear Sir: Here's another problem for those arithmetic and algebra scholars:

If Devoe is worth \$1.75 a gallon and spreads a half further than average paint, and wears twice as long, what is average paint worth a gallon put on, painters' wages being \$3.50 a day and a day's work a gallon of paint?

The answer is minus \$1.75 a gallon. That is: you could not afford to paint with average paint if somebody gives it to you and pays half the painters' wages.

Yours truly
F. W. DEVOE & CO.

P. S. C. L. Williams sells our paint.

—Mrs. T. S. Hughes and daughter Miss Mae returned last Monday from a visit to Mrs. Hughes daughter, Mrs. Tommie Amsler at Kerrville.

Mr. Trautwein of Meyersville, DeWitt County, was in the city several days during the past week visiting his son, Mr. Louis Trautwein, and his daughter, Mrs. E. F. Wolters. During his stay here he celebrated his birthday at the residence of his daughter. Quite a number of friends were present and the occasion was a very enjoyable one. The Shiner Mannerchor was present and rendered some of their favorite songs. There were plenty of good things to eat and drink. We wish Mr. Trautwein many more such happy occasions.
